Contrada Chirchiaro - Vita (TP)

Ingredients: Extra virgin olive oil

Cultivar: 50% Nocellara del Belice, 50% Cerasuola

Can: 5 litres

Units per box: 4

Description: The olive groves are cultivated in soils of medium texture, fresh and well drained, with a south/west exposure. According to the year, the harvest begins between the end of October and mid-November. The olives are harvested by hand with the help of big nets. The milling process is carried out with an equipment that operates on a continuous cycle, without breaks during the production. The result is a high-quality oil obtained from a kind of pressing that makes sure that the precious substances contained in the olives are transferred to the oil. The cold extraction allows to extract the content of the fruits and to preserve the amount of minerals, vitamins and substances rich in antioxidant properties.

Organoleptic properties: the extra virgin olive oil "del Grillo" comes from the desire to bring out the essence of the two varieties. We obtain an extra virgin olive oil with a very low acidity and a high quantity of polyphenols. The colour is green with golden reflections and has a medium density. The nose develops pleasant notes of artichoke and green tomato. It has a medium-intense fruity taste and a balanced bitter and spicy taste.
